PROFESSIONAL SUMMARY

I am a developer who believes in the power of play and the outcomes of driven curiosity who happened to fall in love with code. Drawing from over 12 years of experience in brand visioning and customer experience design, my mantra is simple; 1. The solution is out there, 2. Everything can be helpful with anything, and last but not least, 3. Just keep swimming. The last one's not mine, but it continues to save my life every day.
